Coordinators comments

The course was followed by seven PhD students. Overall, the course went well, with all the students actively participating and being interested in the material we covered. The only thing I would like to stress is the issues we experienced with some students who had trouble logging into Canvas. Apparently, there was some confusion regarding that, e.g. an SLU student had both an employee and a student account that were not synchronised, etc. I believe that in the future, it is important that the students, upon admission, receive clear instructions from IT on what steps they need to carry out in order to gain access.
